Qulliq Energy Corporation
Société d'énergie Qulliq
Qulliq Alruyaktuqtunik Ikumatjutiit

QULLIQ ENERGY CORPORATION

Qulliq Energy Corporation (QEC) is entrusted to provide safe, reliable power to all customers in Nunavut. Owned by the Government of Nunavut and operated as an arms-length territorial corporation, QEC is the sole provider of electricity and district heating in Nunavut. In comparison to other utilities in Canada, QEC faces unique challenges as it operates 25 stand-alone diesel power generation facilities and distribution systems located in each of the territory's communities.

QEC-19-016 Construction Project Manager (2 Year Term)

(Re-advertisement)

Based out of Iqaluit, Nunavut and reporting to the Director, Health, Safety, Environment and Facilities, this term position is accountable for the design and construction of a new corporate building and managing the renovations of corporate facilities as required. This position will be responsible for developing and implementing cost effective project plans and schedules for various outsourced turnkey projects.

The position tracks and controls pre-award vendor inquiries, project schedules, invoice payments, budgets, and provides cost rationalization.

Duties and Responsibilities:

- Develops cost effective plans and schedules for construction and renovation of Capital Projects.
- Manages material resources for construction and all related components, including managing logistical constraints of sealift.
- Oversees performance of all contractors, secures supplies and materials as required through the procurement process.
- Reviews architectural and engineering drawings to ensure regulatory compliance.
- Evaluates construction methods and determines cost-effectiveness of plans, and develops and implement quality-control programs.
- Reviews all applicable federal and territorial acts/regulations, laws and codes to ensure the Corporation is in compliance with the applicable legislation.
- Coordinates site inspections based on corporate requirements and in conjunction with the capital plan.
- Partners with Environmental Specialist on environmental work such as waste removal, site assessments, site delineations, site cleanups and risk assessments for environmental-related services.
